REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims address an apparatus and method for tomographic image reconstruction of projection data obtained by transmitting a radiation beam through a subject where non-continuous data is processed by filtering except for discrete areas with non-continuous values, which is reassembled with the filtered data for reconstruction (as shown in independent claims 1, 5, and 9). This feature is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Besson US 6,108,575 A and US 6,351,514 B1 show conventional ways of handling non-continuous data.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David V. Bruce whose telephone number is (571) 272-2487. The examiner can normally be reached on M - Th and alt Fri 8:00 - 4:30 subject to I-Flex.
